

Assignment 8

Design Note books

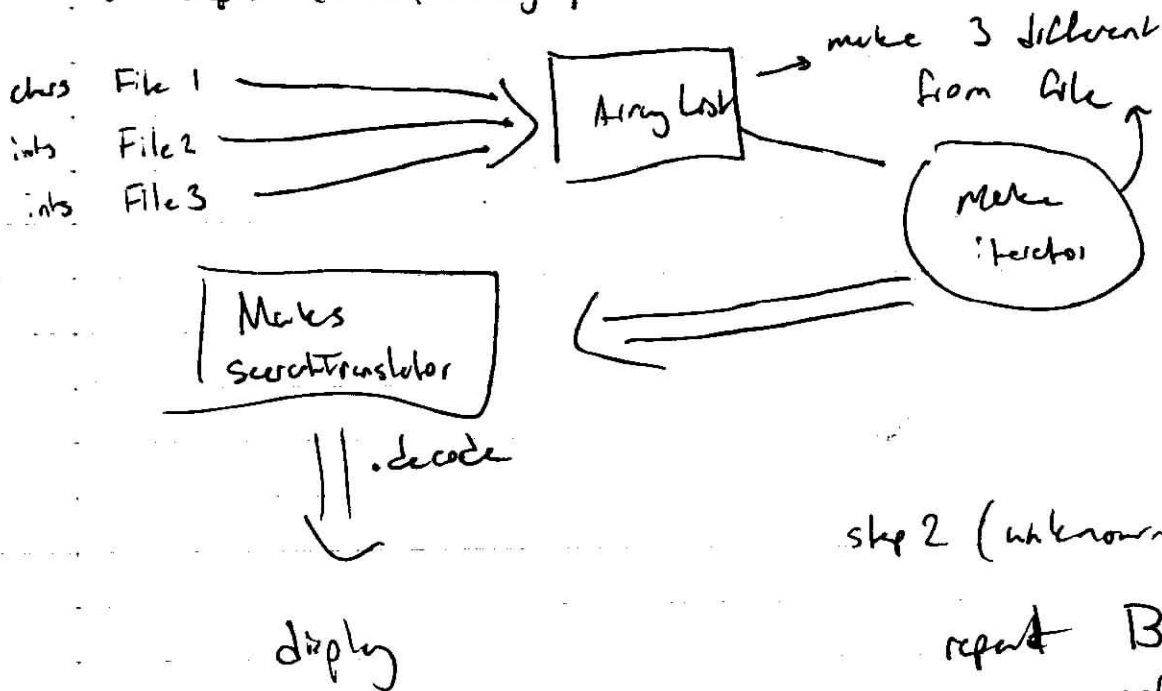

1) In this assignment we will be creating a secret coded message while practicing using Stacks, Queues, and Array lists while also working with Iterators (new to me).

2)

5)

Know	Don't	Learned
<ul style="list-style-type: none"> - Get Array lists - Basics of Queues - manipulation of above - read files 	<ul style="list-style-type: none"> - iterators - maybe converting ASCII #s but bet I can figure it out 	

3) step 1 (known Message)

step 2 (unknown Message)

repeat BUT qms not ArrayList

main

// step 1

open files

mark scanners

~~for~~ declare Arg Lists

while (next) {

 values in Arg list

}

make iterators

new SearchTranslator jell

jell. decode

// step 2

repeat with Answers
